AmCham Slovenia – Business Community of Opportunities and Dialogue

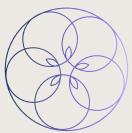

In the AmCham Slovenia business community, together with our members, we create opportunities for a better business and living environment in Slovenia. We believe that change is only possible through an open dialogue between the economy, science, the state and civil society.

We connect knowledge from different industries, seek concrete solutions and act as the voice of Slovenian and international companies. We build relationships that transcend borders and open doors to new solutions. Together, we co-create an environment where good ideas become reality.
